DDI 透過 Network Inventory Service 與 Vision One 整合

- 1. 產品版本需求
 - DDI 5.7 SP3 or above

2. 在 Trend Micro Vision One console 上面啟用 Network Inventory Service

2.1 登入 Trend Micro Vision One console. 選擇 INVENTORY MANAGEMENT > Network Inventory.

2.2 選擇 Network Inventory Service, 點選 Next

2.3 點選 Finish

Connect Network Sensors

Trend Micro Vision One will provision Network Inventory Service to connect network sensors (Deep Discovery Inspector appliances).

Click **Finish** to confirm your choice, or click **Back** to return to the selection.

< Back Finish

2.4 Network Inventory 顯示在螢幕上

- 3. 新增 Network Sensor
 - 3.1 在 Network Inventory 頁面點選+Connect Network Sensor.

Product 選擇 Deployed Deep Discovery Inspector

Sensor Version 選擇 5.7 SP3 and above

Appliance 輸入 DDI IP address

點擊 Go.

3.2 畫面導到 DDI web console

💋 Deep Discovery Inspector

3.3 登入 DDI web console 之後, 在 Registering to Trend Micro Vison One" 視窗. 點選 Continue.
